BUILD A Career in the Bronx That Excites And Inspires

Spark your passion for public education. Apply your skills and make your mark in Bronx classrooms where you're needed most, including high-need subjects: *STEM, English as a New Language, bilingual education and special education.*

Find a school that's a good fit and become part of the community.

Our schools are as diverse as the students we serve, ranging from small thematic schools to neighborhood schools with deep roots in their local communities.

Develop your skills and build a career that excites you. We believe teachers should have regular opportunities to grow and collaborate with colleagues. You will have access to weekly professional development, and resources just for new teachers, including a mentor in your first year.
